

SCHLOSS CAMPING ASCHACH

Our unforgettable moments ♡

WELCOME

THE PERFECT PITCH!

It was love at first "site!"

A fairytale castle looking over us, a breathtaking panorama of Tyrolean mountains all around. A natural idyll as far as the eye can see...and a solitary campground!

Sun or shade in the midst of magnificent trees and 160 good-sized pitches on two hectares with every modern convenience. Powered sites (2,300 watts) also with wireless LAN. Plus an 18 x 6 metre swimming pool with kids' paddling pool and our own water fountain.

Let the holiday begin!

KIDS ENTERTAINMENT

HEAPS OF FUN FOR THE LITTLE ONES

Where fun and action never stop.

Guaranteed to put a smile on little faces! All kids fall in love with the cute cow called Alma, a living mascot and heroine of the vibrant colouring book. Her daily motto: "Let's go to adventure land between the children's playground and the heated outdoor pool!"

And when even the tiniest of tots explores a new world with the experienced childcare professionals that are on hand, there's just no stopping them - both outdoors and in the playroom, with all kinds of wonderful games and activities.

SANITATION

CLEAN LIVING!

The air is pure, just like everything else.

It's all spotless down to the last corner and the hygiene standards are exceptional.

Not only does this make the morning trip to the toilet block a real pleasure, even doing the laundry is a lot of fun!

And nothing beats a neat jump into crystal clear water!

IMPRESSIONS

DON'T FORGET YOUR CAMERA!

There's plenty to snap away at...

at the barbecue party, a picnic in the countryside or a trip to a magical location. You can be sure every angle of medieval Schloss Aschach will be captured too of course. We just haven't quite managed to get the castle ghost (yet)... 😊

EXCURSIONS

A GIANT LIVES RIGHT NEXT DOOR

What a day!

First we were swallowed up by a green giant and taken into the Swarovski Crystal Worlds.

Later we were able to mint a silver "thaler" coin by hand in the Mint Tower (Münzerturm) in Hall. Then we saw even more precious metal at the Golden Roof in Innsbruck.

And tomorrow? Farm museum and steam cog railway! Or perhaps a cruise on the Achensee lake. Or how about a trip back to the Stone Age at the Ötzi village? Or star gazing in the planetarium in Schwaz? Or, or, or...
